

May 30, 2007

Hello F.C.C.

Please don't lose too many people lay off. There is too many people use VRS I need use VRS to call doctor or hospital or my family that I like VRS all time to talk to doctor, police dept and hospital easy for me to talk with VRS better than TTY or TDD it ~~easy~~ take stress to type. All people not anymore take TTY or TDD use. So please keep people work not lay off in support for future

Please don't let people down it will hurt ok

Thank you  
Norma Vinton

May 25, 2007  
Thursday

Dear FCC

Hi please dont cut people work  
relay. We need relay because we  
call to many doctors my brothers and  
her sister & brother that some happen to  
them have a emergy hospital or out town  
call us. We need that relay to keep  
that jobs it is very import and keep for  
futer. We are support for FCC please keep

We dont want that try or fail because take  
show and dont understand we have too  
many friends any states. My wife have  
a lot promble sick & vision eyes. I have to use  
VRS and relay to call doctor office or  
hospital. We are happy get a VRS. & it is  
wonderful to see people on VRS

Need

Hope to Keep Relay for VRS

Thank you God Bless all  
Jannet & Norma Kinton

Re: **TRS Fund - Drastic VRS Rate Cuts**

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

Signature

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

Signature

**Re: TRS Fund - Drastic VRS Rate Cuts**

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.
